

## February Newsletter

February is a month to celebrate love, our Presidents, and learn about dental hygiene. We have so much to learn and talk about this month. We will be busy preparing our Valentine's at the beginning of the month for our party and loved ones and then we will discuss President's Day and make our first American Flag! We will also talk about dental hygiene as February is dental hygiene awareness month! Finally, we will end our month with a trip to the Recreation Center on East Avenue to spend a day at the indoor playground and have class there. Further details will follow when the date gets closer.

Our classes are really forming some special bonds together. We have a short circle time every morning when we sing our "Hello" song, and after we take attendance, there are always lots of stories the children like to share with us. It's so wonderful and such a great pleasure seeing the children at this point of our school year and how far they have all come along. All the children have made some very special friends, and we are happy to be a part of that. All in all, the classes are running wonderfully, so keep up the great work everyone!

We look forward to the month of February!
